

SANiTy State Conference
Wednesday 1 October 2008
ESOS
Minimum Standards to Best Practice

The 2008 theme builds from ESOS changes and the roll out of DEEWR's best practice workshops earlier in 2008. Whilst there have been many positive outcomes for students from the changes, anecdotal evidence suggests there is now a significant shift in approaches to supporting students.

The aim of the conference is to explore how South Australian/ Northern Territory Education Providers are meeting legislative requirements and the impact this has had for both students and the professional staff that support them.

Conference outcomes include information sharing, knowledge on how providers are meeting their own quality objectives and exploration of current issues concerning best practice and minimum standards. A list of issues to feedback will be developed in the plenary session.
